III. Company’s Non-Participation in the DSSRC Process

Despite the fact that the social media posts are accessible in the United States, DSSRC could find little contact information for Future.net. Although the Company does have a website, www.futurenet.club, there is no email address or telephone number provided for consumer or business inquiries.
DSSRC was able to find contact information for a company named FutureNet, Inc. located in Santa Clarita, California. DSSRC brought the representative claims and issues identified above to the Company’s attention by sending a Notice of Inquiry by USPS 2-day mail to FutureNet at this address on January 20, 2022.

When DSSRC tried to call the telephone number associated with the address, it received a message that the telephone number was no longer in service.

After the Company failed to provide a response within 15 business days, DSSRC continued its efforts to contact the Company. After not receiving a response to its Notice of Inquiry, a 10-day notice was mailed to FutureNet on February 28, 2022 indicating that, if the Company failed to provide a response to DSSRC regarding the claims and issue within 10 business days, the matter would be referred to the appropriate government agency.

Notwithstanding the additional opportunity to respond to DSSRC’s inquiry, the Company again failed to reply. DSSRC has also confirmed that all of the subject claims remain active and accessible to the public.

IV. Referral to Government

DSSRC determined that a number of aggressive earnings claims are being disseminated by FutureNet salesforce members on social media, including claims communicating that participants in the Company’s business opportunity can generally expect to earn significant income, passive income, and achieve financial freedom. All such claims appear unsupported.

As stated in the DSSRC Guidance on Earnings Claims for the Direct Selling Industry, it is misleading for a direct selling company and/or its salesforce members to make any earnings claims unless the direct selling company and/or its salesforce members have a reasonable basis for its claim at the time the claim is made and have documentation that substantiates the claim at the time the claim is made.¹

DSSRC remains concerned with the earnings claims that were communicated by the Company’s salesforce members. In accordance with section (II)(9) of the DSSRC Policies and Procedures, in the event the company whose marketing is the subject of a DSSRC inquiry fails to participate in the self-regulatory process, DSSRC may refer the matter to an appropriate government agency for review and possible law enforcement action.

Accordingly, based upon FutureNet’s failure to respond to the self-regulatory inquiry, DSSRC referred this matter to the Federal Trade Commission.
